Everything You Need To Know About WebAR Rebranding ??

Change Page Title

Open your Surface AR campaign and go to Web Editor and click on the Edit button.

Find the **<title>** tag in the beginning of the page. Update your page name between the tags and Save.

```
<title>Your Page Name</title>
```

Change Page Favicon (URL icon)

Find the comment ***Change Favicon*** and update the following **<link>** tag. Paste the address of the new favicon (must be a PNG file) link address to the **href** value and Save.

```
<link rel="shortcut icon" type="image/x-icon" href="Insert PNG image file address">
```

Change Background Color

Find the comment in the CSS, the following comment - */*Change color of the background page */*
Change the default hex color code for background and Save. Find color hex codes from [here](#).

```
background: #ABA8A8;
```

Change QR Window Size

If you want to change the default QR popup window default sizing, please change value next to the following comments: /* QR Window CSS */

To change popup window width - change the values next to /*Change QR window width*/

To change popup window height- change the values next to /*Change QR window height*/

```
#qrWindow{
position: absolute;
margin:auto;
background: rgb(255,255,255);
width: 100vmin; /*Change QR window width*/
max-width: 330px;
height: 100vmin; /*Change QR window height*/
max-height: 400px;
left: 50%;
top: 50%;
transform: translateX(-50%) translateY(-50%);
z-index: 10000;
border: solid 1px gray;
border-radius: 3%;
}
```

Change Logo in QR Code

This is quite easy. Simply follow this existing tutorial to [change logo in QR code](#).
