

Color Template for Surface AR

<https://www.youtube.com/embed/U4q8132fJxw>

Do you want to display your 3D product with various colors? Then you can do it with Marvin XR.

Here's an easy way to achieve it with our new **Color Template**.

1. Open your Surface AR campaign card and go to **Web Editor** menu and click on **Edit**.
2. Remove comment tag (yellow marked area) by removing (`<!-- comment tag in HTML -->`) this syntax.
3. There are three color pallete buttons by default. Change the color of them by putting Hex color code ([HTML color codes](#)).
4. If you want to add more color buttons to your Surface AR campaign - follow the instructions (marked with red).

The screenshot shows the Marvin XR Web Editor interface. The sidebar on the left contains navigation options: Home, AR Show, Dashboard, Insight, 3D Model, GLB Export, Web Editor (highlighted in red), and Settings. Below these are 'OTHERS' options: Subscription and Resize 3D. The main content area displays HTML code for a 3D model. A red box highlights a comment block with instructions for adding color palettes. A yellow box highlights the existing color control buttons. The code includes comments and HTML tags for controlling the 3D model's appearance.

```
camera-orbit="30deg auto auto
max-camera-orbit="auto 100deg auto"
shadow-intensity="1"
camera-controls touch-action="pan-y"
bkg-poster="{{ url_for('static', filename = 'bestbuysofa.png') }}"
src="{{ url_for('static', filename = 'bestbuysofa.glb') }}"
disabled-ios-src="{{ url_for('static', filename = 'bestbuysofa.usdz') }}"
shadow-intensity="1.79" auto-rotate exposure="1" shadow-softness="0.55" tone-mapping="commerce" class="container_div">

<!--Add Color Pallettes to the 3D model - FOLLOW STEPS
1. Uncomment the below div with id="color-controls".
2. Choose your favroite HTML color HEX codes (https://htmlcolorcodes.com).
3. Replace the existing HEX color codes for "data-color" & "background-color".
4. Add new color button? Copy the first line of button tag (with &nbsp;) and add before the last line.
5. Save the configuration -->

<!-- <div class="controls" id="color-controls" style="top: 2%; left: 50%;" onclick="colorControl()">
<button class="new-btn" data-color="#6F6858" style="background-color: #6F6858;"></button>&nbsp;&nbsp;&nbsp;
<button class="new-btn" data-color="#7E6E71" style="background-color: #7E6E71;"></button>&nbsp;&nbsp;&nbsp;
<button class="new-btn" data-color="#8668AF" style="background-color: #8668AF;"></button>
</div-->

<button id="ar-button" slot="ar-button">

</button>
</model-viewer>

<button id="ar-button2">
```

At the bottom of the editor, there are three buttons: Edit, Save, and Cancel. The footer of the interface includes the copyright notice "© 2024 Digital Copyright Reserved by Marvin XR" and social media links for Facebook, LinkedIn, Instagram, Twitter, YouTube, and TikTok, along with a "Join Slack Community" link.
