

# Rebranding Surface AR Campaign

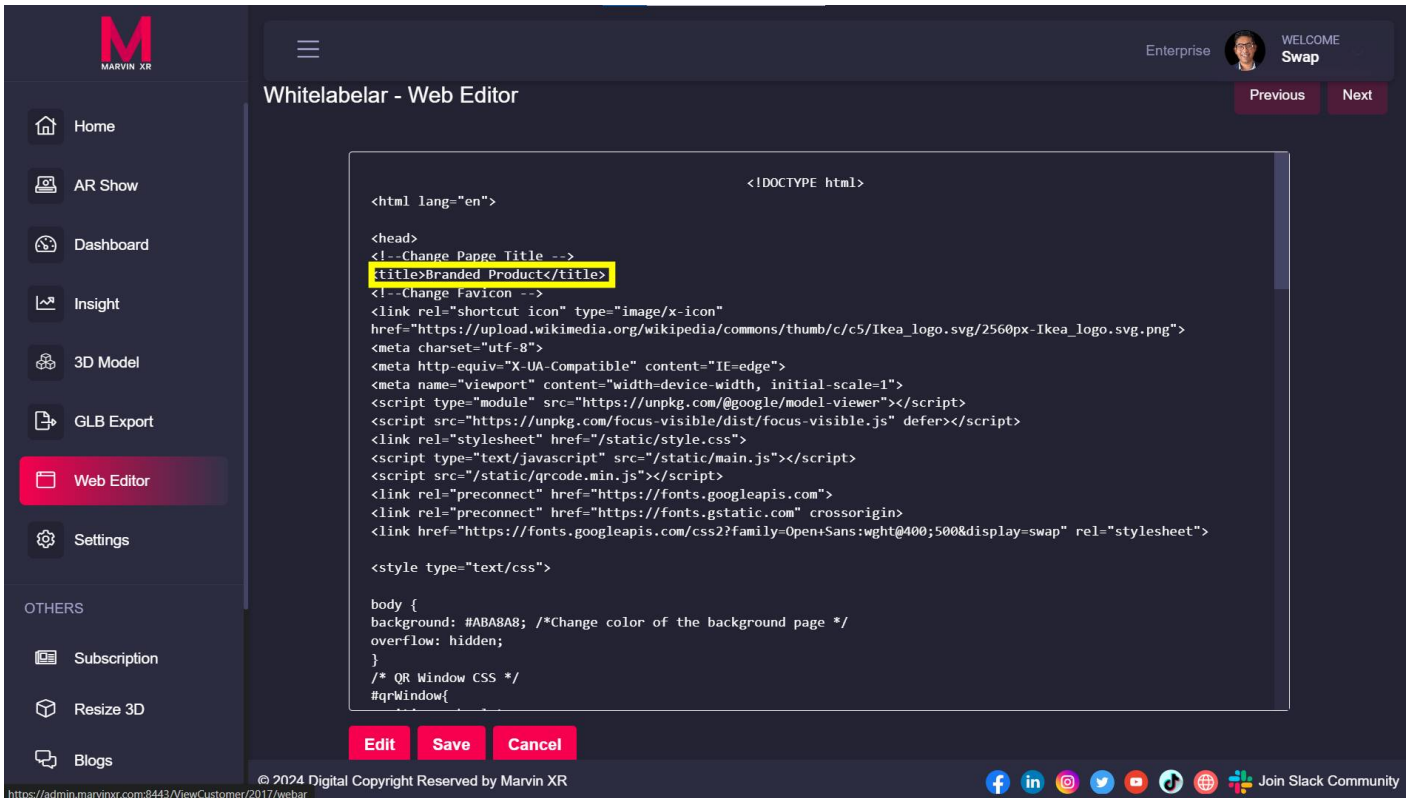

## Everything You Need To Know About WebAR Rebranding ??

### Change Page Title

Open your Surface AR campaign and go to Web Editor and click on the Edit button.

Find the **<title>** tag in the beginning of the page. Update your page name between the tags and Save.

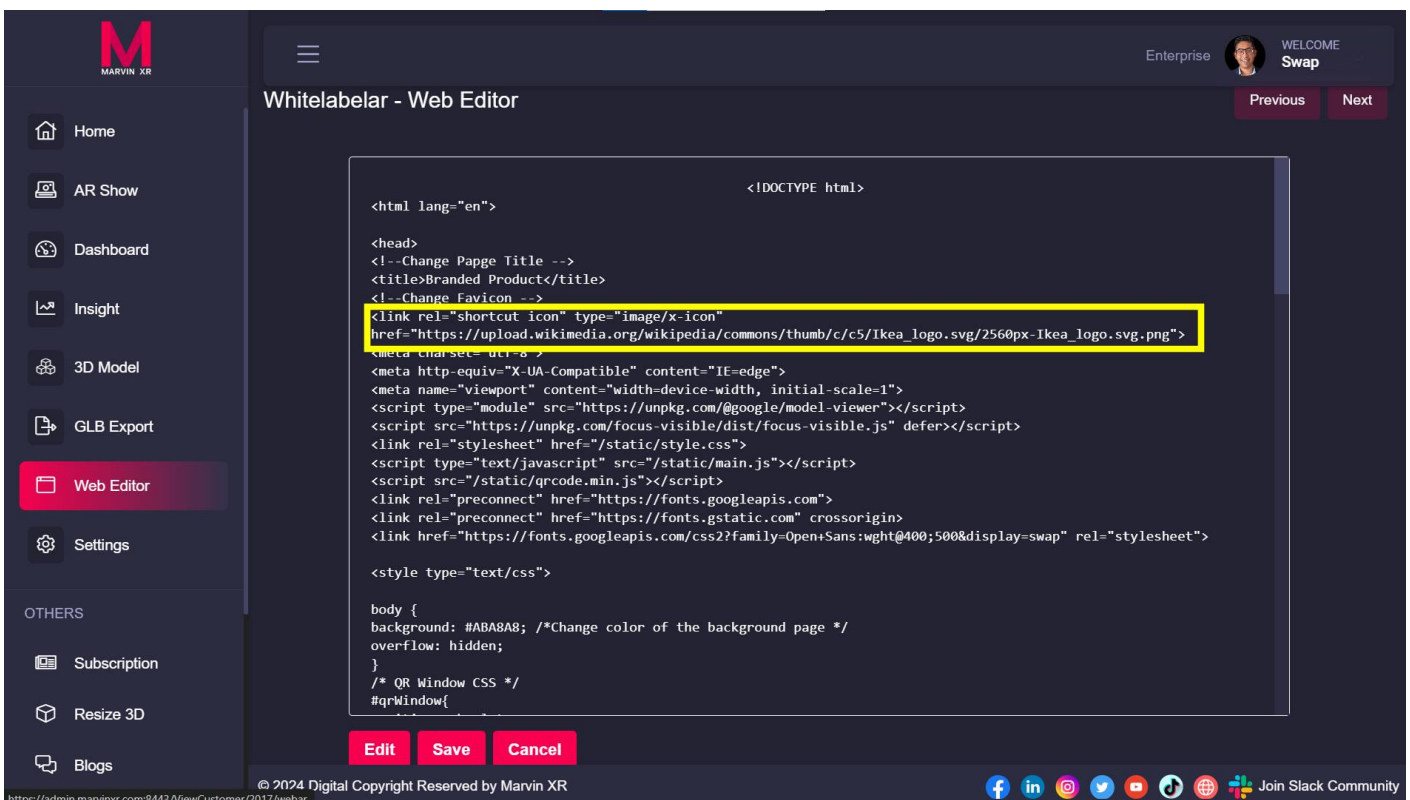

```
<title>Your Page Name</title>
```

## Change Page Favicon (URL icon)

Find the comment **Change Favicon** and update the following **<link>** tag. Paste the address of the new favicon (must be a PNG file) link address to the **href** value and Save.

```
<link rel="shortcut icon" type="image/x-icon" href="Insert PNG image file address">
```

## Change Background Color

Find the comment in the CSS, the following comment - [/\\*Change color of the background page \\*/](#)  
Change the default hex color code for background and Save. Find color hex codes from [here](#).

```
background: #ABA8A8;
```

## Change QR Window Size

If you want to change the default QR popup window default sizing, please change value next to the following comments: [/\\* QR Window CSS \\*/](#)

To change popup window width - change the values next to [/\\*Change QR window width\\*/](#)

To change popup window height- change the values next to [/\\*Change QR window height\\*/](#)

```
#qrWindow{  
position: absolute;  
margin: auto;  
background: rgb(255,255,255);  
width: 100vmin; /*Change QR window width*/  
max-width: 330px;  
height: 100vmin; /*Change QR window height*/  
max-height: 400px;  
left: 50%;  
top: 50%;  
transform: translateX(-50%) translateY(-50%);  
z-index: 10000;  
border: solid 1px gray;  
border-radius: 3%;  
}
```

## Change Logo in QR Code

This is quite easy. Simply follow this existing tutorial to [change logo in QR code](#).
